SKILLS

- **Languages:** Java, JavaScript, TypeScript
- **Framework:** Node.js, Express, React, Redux, Tailwind
- **Cloud & DevOps:** AWS, Docker, Jenkins, Git, Postman, Computer Networks, Linux, OS
- **Tools/Platforms:** Git, GitHub, Chrome DevTools, Linux, MySQL, MongoDB, ChatGPT
- **Soft Skills:** Problem-Solving Skills, Adaptability, Strategic Thinking

TRAINING

- **Gokburu Pvt Limited** June 2024 - Aug 2024
Frontend Developer Trainee
Successfully completed summer training in frontend development, focusing on building dynamic and responsive user interfaces. Developed 3+ fully functional web applications using React.js, HTML, CSS, and JavaScript, improving site performance by 30% through optimization techniques. Collaborated with a team to implement scalable UI architectures, enhancing maintainability and reducing load times by 40% using Tailwind CSS. Gained hands-on experience in modern UI frameworks, debugging, and performance optimization.
Tech : React.js, HTML, CSS, JavaScript, Tailwind CSS

PROJECTS

- **DevTinder | Developer Matching App** Jan 2025 – Apr 2025
Built a responsive matchmaking web app for developers, inspired by Tinder UI/UX, enabling users to swipe through developer profiles based on tech stack and interests. Utilized React, Tailwind CSS, React Router, and Firebase for real-time data syncing, authentication, and profile management. Handled user onboarding, profile uploads, and real-time chat updates using Firebase's real-time database features. Implemented core features including swipe logic, match-making algorithm, real-time chat via WebSockets, and profile filtering. Containerized the application using Docker and deployed it efficiently with Nginx as a reverse proxy for scalable and production-ready delivery. Built a real-time chat system using WebSockets, enhancing interactive user experience.
Tech: React, ExpressJs, NodeJs, MongoDB, Tailwind CSS, React Router, WebSocket, Docker, Nginx
- **YumYum Food Delivery App | Real-Time UI** Nov 2024 - Oct 2024
Engineered a fully responsive and dynamic food delivery web application inspired by Swiggy, leveraging real-time API data integration for restaurant listings and menus. Utilized modern frontend stack including React, Redux Toolkit, Tailwind CSS, React Router DOM, performance validation. Optimized rendering performance by developing reusable, modular components, resulting in a fast and scalable UI. Strengthened expertise in RESTful API consumption, component reusability, and user-centric UI/UX design.
Tech: React, Redux Toolkit, Tailwind CSS, React Router, MongoDB
- **GPT-FLIX | AI-Powered Entertainment Discovery Platform** Sep 2024 - Nov 2024
Developed a responsive web application that integrates Netflix's content discovery with Google Gemini's conversational AI capabilities, allowing users to search for movies and TV shows using natural language queries. Utilized React and Tailwind CSS to design an intuitive, mobile-first UI, ensuring seamless navigation and an engaging user experience across devices. Integrated Google Gemini API to process user queries and provide personalized movie and TV show recommendations based on natural language input. Delivered a production-ready application with focus on performance, scalability, and user experience.
Tech: React, Tailwind CSS, React Router, Firebase, Google Gemini API Key

ACHIEVEMENTS

- **Maintained 1-Year GitHub Commit Streak** Feb 2024 – Apr 2025
Demonstrated consistent dedication by maintaining a 1-year GitHub commit streak, showcasing unwavering commitment to coding, project development, and continuous improvement.
- **Contributed to Open-Source Projects** Sep 2024 – Mar 2025
Actively contributed to high-impact open-source projects, tackling real-world coding challenges and collaborating with global developers, enhancing skills in software design, version control, and team-based development.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.83 August 2022 – May 2026
- **St. Norbert School** Bahraich, UP
Intermediate; Math's, Physics, Chemistry, Computer Science April 2020 - March 2021
- **St. Norbert School** Bahraich, UP
Matriculation; English, Hindi, Math's, Science April 2018 - March 2019
